PhD in Basque Philology (2004, extraordinary doctoral award). Professor in Basque Language and Communication Department since 2011. Member of the Ixa Research Group on Natural Language Processing since 1993. Nowadays Registry Assistant in the Faculty of Engineering of Gipuzkoa. Involved in the area of Applied Linguistics, her researching and teaching activity is focused on building linguistic resources and specialized terminology. She has more than 70 publications, included articles in journals indexed by the Journal Citation Report, and papers on top conferences of NLP. She has participated in several European projects and Spanish National projects. She has directed 2 theses. She is coordinator in the development of a data-base dealing with civil engineering terminology within the TSE program of UPV-EHU.
